Quick Tips

- Enter your search terms in lower case with a space between the terms.

`sales offices`

You can also enter a full question or concept in plain language.

`Where are the sales offices?`

- Capitalize proper nouns to search for specific people, places, or products.

`John Colter, Netscape Navigator`

- Enclose a phrase in double quotes to search for that exact phrase.

`"museum of natural history" "museum of modern art"`

- Narrow your searches by using a **+** if a search term must appear on a page.

`museum +art`

- Exclude pages by using a **-** if a search term must not appear on a page.

`museum -Paris`

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

The World Wide Web is increasingly being used to provide opportunities for distance learning. This report explores the motivations for developing Web-based distance learning and examines a range of issues including ethics, pedagogy, planning, advantages, disadvantages, and appropriate and inappropriate uses. The analysis takes a learner-centric view, classing as appropriate those uses of the Web that further the traditional educational values of quality, outreach, and flexibility. Examples of in ...
